RPE for SUNTAGO - MASTOP

With 18 pools, 32 waterslides, 10 saunas and luxury spas, Suntago Water World, which opened on February 20, 2020 and located in Poland is the largest indoor water park in Europe.

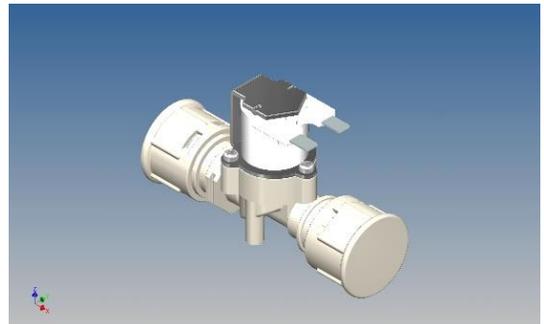

Covering an incredible area of 67,000 m², less than an hour's drive from the capital of Warsaw, and with a whopping price tag of 170 million euros, the splendid water park can accommodate up to 10,000 people 365 days a year.

The water park has planted approximately 800 palm trees, brought from Malaysia, Costa Rica and Florida, which are cared for by Mastop Totaaltechniek BV, a specialized Dutch landscape company based in Boskoop, Netherlands, just south of Amsterdam.

In this project Mastop Totaaltechniek BV is using 800 of the MINI G - 6155 000 NC 24AC Solenoid Valves from RPE for the irrigation system.

RPE is proud to have participated in this project and appreciates the support from everyone involved at the different stages and levels. DP
